Elements of Crisis Intervention - Sharon Leviton 2010-09-01 Designed to help in day-to-day, on-the-scene crisis intervention, ELEMENTS OF CRISIS INTERVENTION: CRISES AND HOW TO RESPOND TO THEM, International Edition offers a nuts-and-bolts presentation of the most important information and concepts needed to be an effective crisis worker. Using a practical, hands-on approach, this one-of-a-kind text provides information, strategies, and guidelines in a quick-reference, outline format. The emotional equivalent of physical first aid, crisis intervention is the act of interrupting the downward spiral of maladaptive behavior as skillfully and as quickly as possible—and returning the sufferer to a pre-crisis level of coping. Effective crisis intervention is about management, not resolution. The goal of this text is to present the basic elements of crisis intervention so that they can be applied to varying crisis situations. A concise handbook for helping professionals who work on the front lines of crisis intervention, it is perfect for crisis interveners, first responders, counselors, nurses, disaster responders, EMTs, law enforcement, human service workers, psychologists, social workers, agency directors, military, and any other professionals who encounter crisis situations.

Crisis Counseling and Helping Skills (First Edition)
Edward Neukrug 2019-03 Counseling and Helping Skills: Critical Techniques to Becoming a Counselor provides counselors and other helping professionals with a complete guide to developing the skills and competencies necessary to support a diverse spectrum of clients. The text is divided into two sections. Part I begins with a chapter that describes nine characteristics of an effective counselor and then moves on to chapters that examine foundational, essential, and commonly used skills. Some skills discussed include nonverbal behaviors, forming an equal relationship, non-pathologizing, honoring and respecting clients, listening, empathy, affirmation giving, offering alternatives, self-disclosure, modeling, collaboration, and more. A separate chapter on information-gathering and solution-focused questions is provided next. Part II concludes with a chapter on specialized skills such as advocacy, assessment for lethality, confrontation, cognitive-behavioral responses, interpretation, positive counseling, life-coaching, and crisis, trauma, and disaster counseling. Part II focuses on treatment issues, including chapters dedicated to case conceptualization; case management, such as DSM-5, psychotropic medications, writing case notes, and more; cultural competency, which describes models of culturally competent counseling and considerations when working with eleven select populations; ethical, professional, and legal issues, which examines the purpose of ethical codes, ethical decision-making, ten critical areas in ethical codes, vignettes, best practices, and malpractice insurance. Comprehensive in research and applied with valuable insight, Counseling and Helping Skills is ideal for graduate-level counseling and related programs. It can also be used by those entering the helping professions to support their transition into the field and serve as a helpful ongoing reference.
