**Modern Genre Theory**-David Duff 2014-09-11 Since Aristotle, genre has been one of the fundamental concepts of literary theory, and much of the world’s literature and criticism has been shaped by ideas about the nature, function and value of literary genres. Modern developments in critical theory, however, prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television, have put in question traditional categories, and challenged the assumptions on which earlier genre theory was based. This has led not just to a reinterpretation of individual genres and the development of new classifications, but also to a radically new understanding of such key topics as the mixing and evolution of genres, generic hierarchies and genre-systems, the politics and sociology of genres, and the relations between genre and gender. This anthology, the first of its kind in English, charts these fascinating developments. Through judicious selections from major twentieth-century genre theorists including Yury Tynyanov, Vladimir Propp, Mikhail Bakhtin, Hans Robert Jauss, Rosalie Colie, Fredric Jameson, Tzvetan Todorov, Gérard Genette and Jacques Derrida, it demonstrates the central role that notions of genre have played in Russian Formalism, structuralism and post-structuralism, reception theory, and various modes of historical criticism. Each essay is accompanied by a detailed headnote, and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre. Also included are an annotated bibliography and a glossary of key terms, making this an indispensable resource for students and anyone interested in genre studies or literary theory.
Extensive booklists are provided for the student to use as an ongoing resource as well as teaching ideas that can literature in the classroom. The book is beautifully written and illustrated to reflect the tone and feel of children's literature -- genres of children's literature (e.g., picture books, folklore, etc.) and the use of children's narratives. Drawing on insightful readings of works from Thomas More's Utopia to Caribbean novels like George Lamming's Water with Berries, from canonical works such as Robinson Crusoe and The Tempest to the lesser-known A Narrative of the Life and Astonishing Adventures of John Daniel by Ralph Morris, Weaver-Hightower examines themes of cannibalism, piracy, monstrousity, imperial aggression, and the concept of going native. Ending with analysis of contemporary film and the role of the United States in global neocolonialism, Weaver-Hightower exposes how island narratives continue not only to describe but to justify colonialism. Rebecca Weaver-Hightower is assistant professor of English and postcolonial studies at the University of North Dakota.

"Empire Islands" - Rebecca Weaver-Hightower 2007 Through a detailed unpacking of the castaway genre's appeal in English literature, Empire Islands forwards our understanding of the sociopsychology of British Empire. Rebecca Weaver-Hightower argues convincingly that by helping generations of readers to make sense of—and perhaps feel better about—imperial aggression, the castaway story in effect enabled the expansion and maintenance of European empire. Empire Islands asks why so many colonial authors chose islands as the setting for their stories of imperial adventure and why so many postcolonial writers “write back” to those island castaway narratives. Drawing on insightful readings of works from Thomas More’s Utopia to Caribbean novels like George Lamming’s Water with Berries, from canonical works such as Robinson Crusoe and The Tempest to the lesser-known A Narrative of the Life and Astonishing Adventures of John Daniel by Ralph Morris, Weaver-Hightower examines themes of cannibalism, piracy, monstrousity, imperial aggression, and the concept of going native. Frankenstein (with Audio & Text)—Mary Shelley 2021-06-28 Frankenstein; or, The Modern Prometheus is a novel written by the British author Mary Shelley. The first edition was published anonymously in London in 1818, and Shelley's name appeared on the revised third edition, published in 1831. The title of the novel refers to the scientist, Victor Frankenstein, who learns how to create life and becomes the creature's monster. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully-realised science fiction novel and raises many issues still relevant to today's society.

The Man in the High Castle—Philip K. Dick 2012-01-24 In this Hugo Award-winning alternative history classic—the basis for the Amazon Original series—the United States lost World War II and was subsequently divided between the Germans in the East and the Japanese in the West. It’s America in 1962. Slavery is legal once again. The few Jews who still survive hide under assumed names. In this world, we meet characters like Frank Frink, a dealer of counterfeit Americans who is himself hiding his Jewish ancestry; Nobusuke Tagomi, the Japanese trade minister in San Francisco, unsure of his standing within the bureaucracy and Japan’s with Germany; and Juliana Frink, Frank’s ex-wife, who may be more important than she realizes. These seemingly disparate characters gradually realize their connections to each other just as they realize that something is not quite right about their world. And it seems as though the answers might lie with Hawthorne Abendsee, a mysterious and reclusive author, whose best-selling novel describes a world in which the US won the War... The Man in the High Castle is Dick at his best, giving readers a harrowing vision of the world that almost was. “The single most resonant and carefully imagined book of Dick’s career.” —New York Times

The Great Derangement—Amitav Ghosh 2016-09-14 Is our imagination adequate to the realities of global warming? The novelist Amitav Ghosh argues that we need art and literature to help us imagine our future in the Anthropocene, but that they are failing short of the task. If culture cannot help us see the realities of our plight, then our era, which so congratulates itself on its self-awareness, may come to be known as the time of the Great Derangement. A case in point is fiction, which is so committed to normalcy and the everyday that it has no space for the improbability of climate change events the persistent droughts, hundred-year storms, and freakish tornadoes. Our politics, likewise, seems unable to mobilize forcefully in response to climate change. Ghosh argues that politics, like literature, has become a matter of individual moral reckoning, a journey of the solitary conscience rather than an arena of collective action. But to limit fiction and politics to individual moral adventure comes at a great cost. The climate crisis asks us to imagine other forms of human existence to a task to which fiction, Ghosh argues, is the best suited of all cultural forms. A powerful nonfiction work by one of our most gifted, thoughtful and attuned novelists, "The Great Derangement "brings a fresh urgency to thinking on climate change. "

The Raven—Edgar Allan Poe 1898

The Princess Bride—William Goldman 2007-10-08 William Goldman's modern fantasy classic is a simple, exceptional story about quests—for riches, revenge, power, and, of course, true love—that's thrilling and timeless. Anyone who lived through the 1980s may find it impossible—indestructible, even—to equate The Princess Bride with anything other than the sweet, celluloid romance of Westley and Buttercup, but the film is only a fraction of the ingenious storytelling you'll find in these pages. Rich in character and satire, the novel is set in 1941 and framed cleverly as an "abridged" retelling of a centuries-old tale set in the fabled country of Florin that's home to “Beasts of all natures and descriptions. Pain. Death. Brave men. Coward men. Strongest men. Chases. Escapes. Lies. Truths. Passions.”

"What is Literature?” and Other Essays—Jean-Paul Sartre 1988 What is Literature? challenges anyone who writes as if literature could be extricated from history or society. But Sartre does more than indict. He offers a definitive statement about the phenomenology of reading, and he goes on to provide a dashingly example of how to write a history of literature that takes ideology and institutions into account.

Channeling a sense of childhood delight, Ken Wilson-Max brings space travel up close for young readers and offers an inspiring ending.

Heraldized as a revelation when it first appeared, The Rise Of The Novel remains one of the most widely read and enjoyable books of literary criticism ever written, capturing precisely and satisfyingly what it is about the form that so enthralled us.

Teaching Literature to Adolescents-Richard Beach 2013-08-21 This text for pre-service and in-service English education courses presents current methods of teaching literature to middle and high school students. The methods are based on social-constructivist/socio-cultural theories of literacy learning, and incorporate research on literary response conducted by the authors. Teaching Literature to Adolescents – a totally new text that draws on ideas from the best selling textbook, Teaching Literature in the Secondary School, by Beach and Marshall – reflects and builds on recent key developments in theory and practice in the field, including: the importance of providing students with a range of critical lenses for analyzing texts and interrogating the beliefs, attitudes, and ideological perspectives encountered in literature; organization of the literature curriculum around topics, themes, or issues; infusion of multicultural literature and emphasis on how writers portray race, class, and gender differences; use of drama as a tool for enhancing understanding of texts; employment of a range of different ways to write about literature; integration of critical analysis of film and media texts with the study of literature; blending of quality young adult literature into the curriculum; and attention to students who have difficulty succeeding in literature classes due to reading difficulties, disparities between school and home cultures, attitudes toward school/English, or lack of engagement with assigned texts or response activities. The interactive Web site contains recommended readings, resources, and activities; links to Web sites and PowerPoint presentations; and opportunities for readers to contribute teaching units to the Web site databases. Instructors and students in middle and high school English methods courses will appreciate the clear, engaging, useful integration of theory, methods, and pedagogical features offered in this text.
