The Plague Epic in Early Modern England
Barbara Doran 2016-12-04 The Plague Epic in Early Modern England: Horrific Masques, 1602-1721 presents this story of the Great Plague as a sequence of theatrical performances, focusing on the role of the actor and the audience in creating a sense of the disease. It contributes to the growing literature on the history of the plague and its impact on the cultural and political life of early modern England.

The Pericope Adulterae, the Gospel of John, and the Literacy of Jesus
Robert Bartlett 2002-04-23 This book investigates whether the Pericope Adulterae, a text that is not part of the canon of the New Testament, is a genuine part of the Gospel of John. It argues that the Pericope Adulterae is a later addition to the text and does not represent a genuine record of Jesus' words and actions.

The History and Practice of Ancient Astronomy

The Practice of Counterpoint
Sara Schechner 2021-03-09 This lively investigation into the boundaries between popular culture and counterpoint shows how these boundaries were not fixed and how they shifted over time, especially in the context of the plague. It challenges the traditional view that the plague was a catastrophic event that caused a complete break in the cultural and intellectual life of early modern Europe.

Medusa, Stephen R. Wilk 2000-07-20 Medusa, the Gorgon, who turns those who gaze upon her to stone, is one of the most popular and enduring figures of Greek mythology. Wilk begins by refamiliarizing readers with the story through ancient authors and classical artwork, then looks at the interpretations that have been offered over time.

Time and Cosmos in Greco-Roman Antiquity
James Evans 2016-11-11 Published on the occasion of the exhibition held at the Institute for the Study of the Ancient World, this volume shows the pervasiveness over a millennium and a half of the studied phenomenon of multi-tier intertextuality, whether as linear window reference or where other linear references are included in the text. The book is grounded on a rigorous chapter on bibliographies. The timely publication of Scientific Books, Libraries and Collectors comes at the beginning of a new era in the history of science, and the book is a vital resource for scholars interested in the history of science and the history of the book.

Studies in Hellenistic Judaism-Louis Feldman 1996-03-01 This volume contains essays, previously published in various places, dealing with Josephus, Judaism and Christianity, Latin literature and the Jews, the Romans in Hellenistic literature, and other studies in Hellenistic Judaism.

The Gospel of Judas in Context-Maddalena Scopello 2008-01-01 The papers gathered in this book were presented at the First International Conference (held in Paris, University of Sorbonne, October 27th-28th 2006), devoted to the newly discovered Gospel of Judas, preserved in the 4th century Coptic Codex Tchacos. These essays explore several crucial literary, historical and doctrinal issues related to this gospel, composed in the second half of the 2nd century. This unexpected discovery sheds a new light on the role attributed to Judas by some Gnostic Christian movements. A hotly debated question is precisely the significance of Judas in this gospel: hero or villain? Special attention is given to the sources - Greek, Jewish, Christian and even Iranian - used by the unknown author. This book will be of special interest for historians of late Antiquity religions and scholars in New Testament studies, Gnosticism and Coptic literature.

Hannibal's Oath-John Prevas 2017-09-26 According to the ancient sources, Hannibal was nine years old when his father led him to the temple at Carthage and dipped the young boy's hands in the blood of the sacrificial victim. Before those gods, Hannibal swore an oath of eternal hatred toward Rome. Few images in history have managed to capture and hold the popular imagination quite like that of Hannibal, the fearless North African, perched on a monstrous elephant, leading his mercenaries over the Alps, and then, against all odds, descending the ice-covered peaks to challenge Rome in her own backyard for mastery of the ancient world. It was a bold move, and it established Hannibal as one of history's greatest commanders. But this same brilliant tactician is also one of history's most tragic figures; fate condemned him to win his battles but not his war against Rome. An internationally recognized expert on Hannibal for nearly thirty years, historian John Prevas has visited every Hannibal-related site and mountain pass, from Tunisia to Italy, Spain to Turkey, seeking evidence to dispel the myths surrounding Hannibal’s character and his wars. Hannibal's Oath is an easily readable yet comprehensive biography of this iconic military leader—an epic account of a monumental and tragic life.

Magic and Divination at the Courts of Burgundy and France-Jan R. Veenstra 1998 This volume presents a critical edition of Laurens Pignon’s treatise "Contre les devineurs" (1411) and examines its literary and historical context of courtly magic and astrology in Burgundy and France during the reign of Charles VI.
