*Realistic Hope*-Angela Wilkinson 2018-10-26 We are running out of water, robots will take our jobs, we are eating ourselves to an early death, old age pension and health systems are bankrupting governments, and an immigration crisis is unravelling the European integration project. A growing number of nightmares, perfect storms, and global catastrophes create fear of the future. One response is technocratic optimism - we'll invent our way out of these impending crises! Or we'll simply ignore them as politically too hot to handle, too uncomfortable for experts - denied until crisis hits. History is littered with late lessons from early warnings. Populism flourishes in the depths of despair. Despite the gloom, there is another way to look at the future. We don't have to be pessimistic or optimistic - we can find realistic hope. Where does this hope come from? From future-oriented thinkers who do not ignore reality, but taking these challenges into account, realise the possibility of making a better future for many more people. Realistic Hope is written by an international and influential collection of future shapers. It is aimed at anyone who is interested in learning to use open futures thinking to refresh the present, forge new, common ground, and redesign destiny.

*365 Reasons to Look on the Bright Side*-Richard Happer 2012-09-06
365 Reasons to Look on the Bright Side is full to the brim with good fortune arisen out of the flames of history’s biggest and smallest errors, blunders and miscalculations – one for every day of the year, on the day it happened. This brilliantly quirky book demonstrates that while the old adage of ‘Everyone makes mistakes’ may be true, some gaffes are so monumental that they can end up improving life for everyone else (if not for themselves!). 365 Reasons to Look on the Bright Side has many magical moments of looking on the bright side of history’s most hopeless moments. Here a few to whet your whistle: Thanking Atilla the Hun for creating Venice, crediting Alexander Graham Bell’s mum’s deafness for inventing the telephone, praising Pope Clement VIII for blessing coffee, realizing that without the bubonic plague Newton may never had invented calculus and believing how one particularly big-boobed woman helped invent the stethoscope. **The Silver Linings Playbook**-Matthew Quick 2010-04-27 An enchanting first novel about love, madness, and Kenny G. A New York Times bestseller, The Silver Linings Playbook was adapted into the Oscar-winning movie starring Bradley Cooper and Jennifer Lawrence. It tells the riotous and poignant story of how one man regains his memory and comes to terms with the magnitude of his wife's betrayal. During the years he spends in a neural health facility, Pat Peoples formulates a theory about silver linings: he believes his life is a movie produced by God, his mission is to become physically fit and emotionally supportive, and his happy ending will be the return of his estranged wife, Nikki. When Pat goes to live with his parents, everything seems changed: no one will talk to him about Nikki; his old friends are saddled with families; the Philadelphia Eagles keep losing, making his father moody; and his new therapist seems to be recommending adultery as a form of therapy. When Pat meets the tragically widowed and clinically depressed Tiffany, she offers to act as a liaison between him and his wife, if only he will give up watching football, agree to perform in this year's Dance Away Depression competition, and promise not to tell anyone about their "contract." All the while, Pat keeps searching for his silver lining. In this brilliantly written debut novel, Matthew Quick takes us inside Pat's mind, deftly showing us the world from his distorted yet endearing perspective. The result is a touching and funny story that helps us look at both depression and love in a wonderfully refreshing way.

The Silver Lining- Hollye Jacobs 2014-03-18 A NEW YORK TIMES BESTSELLER As a healthy, happy thirty-nine-year-old mother with no family history of breast cancer, being diagnosed with the disease rocked Hollye Jacobs’s world. Having worked as a nurse, social worker, and child development specialist for fifteen years, she suddenly found herself in the position of moving into the hospital bed. She was trained as a clinician to heal. In her role as patient, the healing process became personal. Exquisitely illustrated with full-color photographs by Hollye’s close friend, award-winning photographer Elizabeth Messina, The Silver Lining is both Hollye’s memoir and a practical, supportive resource for anyone whose life has been touched by breast cancer. In the first section of each chapter, she describes with humor and wisdom her personal experience and gives details about her diagnosis, treatment, side effects, and recovery. The second section of each chapter is told from Hollye’s point of view as a medical expert. In addition to providing a glossary of important terms and resources, she addresses the physical and emotional aspects of treatment, highlights what patients can expect, and provides action steps, including: What to do when facing a diagnosis How to find the best and most supportive medical team What questions to ask What to expect at medical tests How to talk with and support children How to relieve or avoid side effects How to be a supportive friend or family member How to find Silver Linings Looking for and finding Silver Linings buoyed Hollye from the time of her diagnosis throughout her double mastectomy, chemotherapy, radiation, and recovery. They gave her the balance and perspective to get her through the worst days, and they compose the soul of the book. The Silver Lining of Hollye’s illness is that she can now use the knowledge gleaned from her experience to try to make it better for those who have to follow her down this difficult path. This is why she is sharing her story. Hollye is the experienced girlfriend who wants to help shed some light in the darkness, provide guidance through the confusion, and hold your hand every step of the way. At once comforting and instructive, realistic and inspiring, The Silver Lining is a visually beautiful, poignant must-read for everyone who has been touched by cancer.

It’s the newest title in her popular Color of Heaven Series, where people are affected by real life magic and miracles that change everything they once believed about life and love. It’s been five years since Emma Cochran endured the worst possible tragedy—the sudden, unexpected death of her four-year-old son. The emotional trauma tore her marriage apart, but now her divorce is final and she wants to begin again. She’s found happiness at last with her fiancé,
Luke, who is eager to start a family with her. On the other side of the country, single mother Bev Hutchinson watches helplessly as her five-year-old daughter Louise drowns in a high-profile boating accident. Miraculously, Louise is brought back to life and claims she went to heaven. The news causes a media frenzy surrounding the little girl, and Bev does everything she can to shield herself and her daughter from the relentless swarming of the press. Lives collide when Emma becomes obsessed with the story of the child, thousands of miles away, who drowned and went to heaven. She wants to connect with the mother, but Emma’s fiancé is against the idea because he wants her to let go of her grief and move on. He descended from the camel’s back and started circling it while meditatively saying: Why don’t you get up? Why don’t you come back to life? Here are your limbs! They are perfectly complete and your body is sound! What is the matter with you? What used to keep you going? What worked in you to make you alive? What caused you to die? What stopped you now from moving? Then he left his camel in amazement, wondering what had happened to it.
